

DUP-Series High-Speed CD/DVD/BD Tower Duplication Systems

DUP-07

1:7 Duplicator

- One CD/DVD-ROM drive
- Seven recordable DVD/CD or BD drives
- Built-in 160 GB hard drive
- Complete standalone operation
– no PC required

DUP-11

1:11 Duplicator

- One CD/DVD-ROM drive
- Eleven recordable DVD/CD or BD drives
- Built-in 160 GB hard drive
- Complete standalone operation
– no PC required

DUP-15

1:15 Duplicator

- One CD/DVD-ROM drive
- Fifteen recordable DVD/CD or BD drives
- Built-in 160 GB hard drive
- Complete standalone operation
– no PC required

35 years experience with more than 1 million sold systems.

Industry Design Duplication System for Optical Media

The DUP-Series – Primera's new high-speed duplicators – copies up to fifteen CDs or DVDs at a time at the fastest speeds currently available. The DUP-Series support all current media formats, including CD-R, DVD±R and even DVD±R DL. All tower duplicators use a unique, aluminum chassis and frame that more efficiently dissipates heat. In combination with high-quality recordable drives, the DUP Copy Towers provide years of faithful and reliable continuous operation.

The DUP-15/DUP-11/DUP-07 are also available as Blu-Ray versions, incorporating the latest Blu-ray drives and therefore, support additional media types like BD-R and BD-DL up to 50 GB. Duplicators are typically used when many identical copies are required in a very short period of time like for:

- **Concerts**
- **Events**
- **Theater Performance**
- **Press Conferences**
- **Church Services**
- **and much more!**

Primera is a member of the Blu-ray Disc Association and is the world's first manufacturer of automated disc publishers to announce support for Blu-ray Disc technology.

DUP-08/1000 Automated Duplicator

- the Duplication System for High Volume 24/7 Work Environments

DUP-08/1000

The DUP-08/1000 is an industrial strength large capacity robotic CD/DVD autoloader duplicator for continuous duplication and high volume production. With the highest degree of reliability and functionality, the DUP-08/1000 is the answer. An industrial robotic arm and spindles that never need to be realigned, guarantee years of faithful continuous operation.

The 08/1000 offers all the exceptional abilities of our DUP-Series with a more modular design for easier hardware upgradeability and maintenance in the future. The DUP-08/1000 comes with 1000 disc capacity and 8 drives to maximize every production.

Some key features of the DUP-08/1000 are:

- Complete standalone system - no PC required
- Multi-Master Recognition (MMRT) for multiple duplication jobs
- Dynamic hard drive partitioning
- Supports Auto-Copy mode
- Sticky media separation
- Rugged industry robotics as used in media production facility

DUP Tower Duplicator Comparison Chart

	DUP-07	DUP-11	DUP-15	DUP-08/1000
